

PG&E Corporate Environmental Justice Policy

PG&E Corporation will conduct its operations in a manner that is consistent with and promotes environmental justice principles. We are committed to:

- A. Comply with the letter and spirit of environmental justice laws and regulations in our operations.
- B. Set high standards of environmental performance to minimize environmental impacts from our operations.
- C. Work diligently to address all environmental justice issues.
- D. Incorporate environmental justice considerations in the purchase of existing facilities and the planning and development of new facilities.
- E. Work with stakeholders to ensure that future development around our facilities is compatible with our existing and planned facility use.
- F. Maintain open and responsive communications with all stakeholders.
- G. Communicate and reinforce our environmental justice values within the corporation.
- H. Accept responsibility for our operations, and in so doing work collaboratively with our neighbors and surrounding communities.
