

---

Table 1: PG&E Corporation Business Priorities 2007-2011

---

1. Advance business transformation
2. Provide attractive shareholder returns
3. Increase investment in utility infrastructure
4. Implement an effective energy procurement plan
5. Improve reputation through more effective communications
6. Evaluate the evolving industry and related investment opportunities

Table 2: Reconciliation of PG&E Corporation's Earnings from Operations to Consolidated Net Income in Accordance with Generally Accepted Accounting Principles ("GAAP")  
Third Quarter and Year-to-Date, 2007 vs. 2006  
(in millions, except per share amounts)

	Three months ended September 30,				Nine months ended September 30,			
	Earnings		Earnings per Common Share (Diluted)		Earnings (Loss)		Earnings (Loss) per Common Share (Diluted)	
	2007	2006	2007	2006	2007	2006	2007	2006
PG&E Corporation Earnings from Operations <sup>(1)</sup>	\$ 278	\$ 310	\$ 0.77	\$ 0.86	\$ 803	\$ 752	\$ 2.22	\$ 2.09
Items Impacting Comparability <sup>(2)</sup>								
Scheduling Coordinator Cost Recovery <sup>(3)</sup>	-	55	-	0.15	-	77	-	0.21
Environmental Remediation Liability <sup>(4)</sup>	-	-	-	-	-	(18)	-	(0.05)
Recovery of Interest on PX Liability <sup>(5)</sup>	-	28	-	0.08	-	28	-	0.08
Total	-	83	-	0.23	-	87	-	0.24
PG&E Corporation Earnings on a GAAP basis	\$ 278	\$ 393	\$ 0.77	\$ 1.09	\$ 803	\$ 839	\$ 2.22	\$ 2.33

- Earnings from operations exclude items impacting comparability.
- Items impacting comparability reconcile earnings from operations with consolidated net income as reported in accordance with GAAP. For the three and nine months ended September 30, 2007, PG&E Corporation did not have any items impacting comparability to report.
- Items impacting comparability for the three and nine months ended September 30, 2006 reflect the recovery of approximately \$55 million (\$0.15 per common share) and \$77 million (\$0.21 per common share), after tax, respectively, of Scheduling Coordinator ("SC") costs incurred from April 1998 through September 2006, which were determined by the Federal Energy Regulatory Commission ("FERC") to be recoverable through the transmission revenue balancing account ("TRBA").
- Items impacting comparability for the nine months ended September 30, 2006 reflect an increase of approximately \$18 million (\$0.05 per common share), after-tax, in the estimated cost of environmental remediation associated with the Utility's gas compressor station located near Hinkley, California, as a result of changes in the California Regional Water Quality Control Board's imposed remediation levels.
- Items impacting comparability for the three and nine months ended September 30, 2006 reflect the recovery of approximately \$28 million (\$0.08 per common share), after-tax, of previously recorded net interest expense on the Power Exchange Corporation ("PX") liability from April 12, 2004 to February 10, 2005, in the Energy Recovery Bond Balancing Account as a result of completion of the verification audit by the California Public Utilities Commission ("CPUC") in the Utility's 2005 annual electric true-up proceeding.

Table 3: Reconciliation of Pacific Gas and Electric Company's Earnings from Operations to Consolidated Net Income in Accordance with GAAP  
Third Quarter and Year-to-Date, 2007 vs. 2006  
(in millions)

	Three months ended September 30,		Nine months ended September 30,

Table 6: Operational Performance Metrics  
Third Quarter Actual 2007 vs. Targets 2007

	Percentage Weight <sup>(1)</sup>	2007		
		Q3 YTD Actual	Q3 YTD Target	EOY Target
1. Earnings from operations (in millions) <i>(Earnings from ongoing core operations)</i>	50%	\$ 803	See note (2)	See note (2)
2. J.D. Power Customer Satisfaction Index <i>(Composite of J.D. Power residential and business customer surveys)</i>	20%	691	675	676
3. Business Transformation Performance <i>(Composite of five Transformation metrics)</i>	20%	0.973	1.000	1.000
4. Employee Engagement Premier Survey <i>(Measurement of employee engagement at PG&amp;E)</i>	5%	See note (3)	N/A	66%
5. Safety Performance <i>(Measurement of occupational injury or illness based on OSHA Recordables)</i>	5%	4.353	4.500	4.500

1. Represents weighting used in calculating PG&E Corporation Short-Term Incentive Plan performance for management employees.
2. Internal target not publicly disclosed but is consistent with publicly disclosed guidance for 2007 EPS from operations of \$2.70-\$2.80.
3. The Employee Engagement Premier Survey will be administered in December 2007 with results available in February 2008.

DEFINITIONS OF 2007 OPERATIONAL PERFORMANCE METRICS FROM TABLE 6:

1. Earnings from Operations:

Earnings from operations measures PG&E Corporation's earnings power from ongoing core operations. It allows investors to compare the underlying financial performance of the business from one period to another, exclusive of items that management believes do not reflect the normal course of operations (items impacting comparability). The measurement is not in accordance with GAAP. For a reconciliation of earnings from operations to consolidated net income in accordance with GAAP, see Tables 2 and 3 above.

The 2007 target for earnings from operations is based on the Utility's 2007 authorized return on equity. This target is not publicly reported but is consistent with PG&E Corporation's publicly disclosed guidance range provided for 2007 EPS from operations of \$2.70-\$2.80.

2. J.D. Power Customer Satisfaction Index:

Pacific Gas and Electric Company measures residential and business customer satisfaction with annual industry-wide surveys conducted by J.D. Power and Associates, as well as with proprietary studies using the same survey methodology in interim periods. The overall customer satisfaction metric represents the year-to-date average of the residential and business overall customer satisfaction scores from both the J.D. Power-administered and proprietary surveys. The metric is calculated by first combining the available residential and business satisfaction scores (weighted 60% and 40%, respectively) in each period surveyed and then averaging all available composite scores for the year-to-date metric value.

3. Business Transformation Performance:

The Business Transformation (BT) index is comprised of five measurement points that define success in achieving key BT operational, financial, and post-BT implementation objectives. These five measurement points are:

- a. Overall BT cost performance in comparison to budgeted amounts;
- b. Overall BT benefit performance in comparison to planned/budgeted amounts;
- c. New business customer connection performance improvement for cycle time and number of customer commitments met;
- d. SmartMeter<sup>TM</sup> project performance for number of meters installed and activated; and
- e. BT Foundational release schedule and scope success.

The measurement points are individually scored on an index scaled from 0 to 2. These scores then are averaged with equal weighting to calculate the overall BT performance index score.

4. Employee Engagement Premier Survey:

The employee engagement premier survey is designed around 15 key drivers of employee engagement. The average overall employee engagement score provides a comprehensive metric that is derived by averaging the percent favorable responses from all 40 core survey items (all fall into one of the 15 key drivers).

5. Safety Performance:

The OSHA Recordable Rate measures the number of OSHA Recordable injuries, illnesses, or exposures that (1) satisfy OSHA requirements for recordability, and (2) occur in the current year. In general, an injury must result in medical treatment beyond first aid or result in work restrictions, death, or loss of consciousness to be OSHA Recordable. The rate measures how frequently OSHA Recordable cases occur for every 200,000 hours worked, or for approximately every 100 employees.

Table 7: Pacific Gas and Electric Company Operating Statistics  
Third Quarter and Year-to-Date, 2007 vs. 2006

Estimated Items Impacting Comparability	\$ 0.00	\$ 0.00
EPS Guidance on a GAAP Basis	<u>\$ 2.90</u>	<u>\$ 3.00</u>

---

The EPS guidance for 2007 and 2008 are forward-looking statements that are based on various assumptions that may prove to be inaccurate. Actual results may differ materially. For a discussion of the factors that may affect future results, see the factors listed in Table 10, the discussion of risk factors in PG&E Corporation's and Pacific Gas and Electric Company's combined Quarterly Report on Form 10-Q for the quarter ended September 30, 2007, and the discussion of risk factors in PG&E Corporation's and Pacific Gas and Electric Company's combined Annual Report on Form 10-K for the year ended December 31, 2006.

---

Table 9: Rate Base - Pacific Gas and Electric Company

---

	2006 Recorded	2007 Estimated	2008 Estimated
Total Weighted Average Rate Base (in billions)	\$ 15.9	\$ 16.9	\$ 18.7

---

The estimates of rate base for 2007 and 2008 and the forecast of capital expenditures on which the estimates are based, are forward-looking statements that are subject to various risks and uncertainties, including whether the forecasted expenditures will be made within the time periods assumed. Actual results may differ materially. For a discussion of the factors that may affect future results, see the factors listed in Table 10, the discussion of risk factors in PG&E Corporation's and Pacific Gas and Electric Company's combined Quarterly Report on Form 10-Q for the quarter ended September 30, 2007, and the discussion of risk factors in PG&E Corporation's and Pacific Gas and Electric Company's combined Annual Report on Form 10-K for the year ended December 31, 2006.

Table 10: General Earnings Sensitivities for 2007 and 2008  
PG&E Corporation and Pacific Gas and Electric Company

Variable	Description of Change	Estimated Earnings Impact for 2007	Estimated Earnings Impact for 2008
Rate base	+/- \$100 million change in rate base <sup>(1)</sup>	+/- \$6 million	+/- \$6 million
Return on equity (ROE)	+/- 0.1% change in earned ROE	+/- \$9 million	+/- \$10 million
Share count	+/- 1% change in average shares outstanding	-/+ \$0.03 per share	-/+ \$0.03 per share
Revenues	+/- \$7 million change in revenues (pre-tax), including Electric Transmission and California Gas Transmission	+/- \$0.01 per share	+/- \$0.01 per share

1. Assumes earning 11.35% on equity portion (52%).

DISCUSSION RELATED TO TABLES 8, 9, and 10:

Management's statements regarding 2007 and 2008 guidance for earnings from operations per common share for PG&E Corporation, estimated rate base for 2007 and 2008, and general sensitivities for 2007 and 2008 earnings, constitute forward-looking statements that are based on current expectations and assumptions which management believes are reasonable, including that the Utility earns at least its authorized rate of return on equity, that the Utility's ratemaking capital structure is maintained at 52 percent equity, and that the Utility is successful in implementing its initiatives to become more efficient and reduce costs. These statements and assumptions are necessarily subject to various risks and uncertainties. Actual results may differ materially. Factors that could cause actual results to differ materially include:

- . the Utility's ability to timely recover costs through rates;
- . the outcome of regulatory proceedings, including ratemaking proceedings pending at the CPUC and the FERC;
- . the adequacy and price of electricity and natural gas supplies, and the ability of the Utility to manage and respond to the volatility of the electricity and natural gas markets;
- . the effect of weather, storms, earthquakes, fires, floods, disease, other natural disasters, explosions, accidents, mechanical breakdowns, acts of terrorism, and other events or hazards on the Utility's facilities and operations, its customers, and third parties on which the Utility relies;
- . the potential impacts of climate change on the Utility's electricity and natural gas businesses;
- . changes in customer demand for electricity and natural gas resulting from unanticipated population growth or decline, general economic and financial market conditions, changes in technology, including the development of alternative energy sources, or other reasons;
- . operating performance of the Utility's Diablo Canyon nuclear generating facilities ("Diablo Canyon"), the occurrence of unplanned outages at Diablo Canyon, or the temporary or permanent cessation of operations at Diablo Canyon;
- . the ability of the Utility to recognize benefits from its initiatives to improve its business processes and systems and customer service;
- . whether the Utility's planned capital investment projects are completed within authorized cost amounts;
- . the impact of changes in federal or state laws, or their interpretation, on energy policy and the regulation of utilities and their holding companies;
- . the impact of changing wholesale electric or gas market rules, including new rules of the California Independent System Operator to restructure the California wholesale electricity market;
- . how the CPUC administers the conditions imposed on PG&E Corporation when it became the Utility's holding company;
- . the extent to which PG&E Corporation or the Utility incurs costs and liabilities in connection with litigation that are not recoverable through rates;
- . the ability of PG&E Corporation and/or the Utility to access capital markets and other sources of credit;
- . the impact of environmental laws and regulations and the costs of compliance and remediation;
- . the effect of municipalization, direct access, community choice aggregation, or other forms of bypass; and
- . other factors and risks disclosed in PG&E Corporation's and Pacific Gas and Electric Company's SEC reports.

1. Since no holders of the Convertible Subordinated Notes exercised the one-time right to require PG&E Corporation to repurchase the Convertible Subordinated Notes on June 30, 2007, PG&E Corporation reclassified the Convertible Subordinated Notes as a noncurrent liability (in Noncurrent Liabilities - Long-Term Debt) in PG&E Corporation's Condensed Consolidated Balance Sheets effective as of that date.
2. At September 30, 2007, interest rates on these loans ranged from 3.88% to 4.05%.
3. These bonds are supported by \$620 million of letters of credit which expire on February 24, 2012. Although the stated maturity date is 2026, the bonds will remain outstanding only if the Utility extends or replaces the letters of credit.
4. At September 30, 2007, interest rates on these loans ranged from 3.20 % to 4.00%.

Table 15: Pacific Gas and Electric Company  
Docket Numbers of Selected Regulatory Cases

Name	Brief Description	Docket Number
Gas Accord IV	CPUC proceeding to set rates, terms and conditions for gas transmission and storage services effective January 1, 2008 through 2010. Settlement filed on March 15, 2007. CPUC issued a final decision on September 20, 2007 approving the settlement.	A.07-03-012 D.07-09-045
Cost of Capital 2008	CPUC proceeding to establish capital structure and increase the currently authorized rate of return on equity and rate base for 2008. Final decision on rate of return expected by year-end 2007.	A.07-05-008
2006 Long Term Procurement Plan (2006 LTPP)	CPUC proceeding to determine need for new generation in the 10-year period 2007 through 2016. Also determines how costs associated with new generation will be recovered from customers. In 2006 plan, PG&E seeks approval to procure up to 2,300 MW of new generation. Final decision expected by year-end 2007.	R.06-02-013
Billing and Collection Investigation	On September 20, 2007, the CPUC ordered the Utility to refund, at shareholder expense, approximately \$35 million to customers and refund reconnection fees and pay credits to approximately 3,000 customers whose service was shut off for nonpayment of illegal backbills. PG&E Corporation and the Utility do not expect that the payment of such refunds will have a material adverse effect on their financial condition or results of operations.	I.03-01-012 D.07-09-041
QF Pricing and Policy	On September 20, 2007, the CPUC issued a decision that modifies the CPUC's policies and pricing mechanisms applicable to the investor-owned electric utilities' purchase of energy and capacity from certain QFs. Among other changes, the decision modifies the current formula for determining the utilities' short-run avoided costs ("SRAC") (i.e., the cost of energy, which, in the absence of a QF's generation, the utilities would otherwise generate or purchase from another source). The modified SRAC formula uses a market index formula based in part on forward market price estimates. The Utility is evaluating the new SRAC pricing formula to determine its effect on the energy payments that will be made to the non-settling QFs. On October 25, 2007, the Utility, along with the other investor-owned electric utilities, The Utility Reform Network and the CPUC's Division of Ratepayer Advocates, filed an application for rehearing of the decision.	R.04-04-003 D.07-09-040

Table 15 (continued): Pacific Gas and Electric Company  
Docket Numbers of Selected Regulatory Cases

Name	Brief Description	Docket Number
Transmission Owner 10 Rate Case (TO10)	Primary FERC rate-making proceeding to determine electric transmission revenues and wholesale and retail transmission rates effective October 1, 2007. Application filed on July 30, 2007. Order issued September 28, 2007, accepting proposed rate subject to hearing and refund effective March 1, 2008. Final decision expected by second quarter 2008.	ER07-1213-000
2007 Renewable Resources Solicitation and Implementation	2007 Renewable Portfolio Standards solicitation approved in February 2007. Contracts are expected to be executed by year-end 2007. Decisions on the use of short-term contracts and on the use of tradable Renewable Energy Credits are expected by year-end 2007.	R.06-05-027 D.07-02-011 R.06-02-012 D.07-07-027
Energy Efficiency Order Instituting Rulemaking (OIR) Post-2005	Rulemaking to determine Energy Efficiency policies and programs including shareholder risk/return mechanism. On September 20, 2007, the CPUC voted to establish incentive ratemaking mechanisms applicable to the California investor-owned utilities' implementation of their energy efficiency programs funded for the 2006-2008 and 2009-2011 program cycles. The CPUC will review the adopted mechanisms in 2011 prior to continuation to subsequent program cycles. On October 31, 2007, the Utility, along with other investor-owned electric utilities, filed a petition for modification of the shareholder incentive mechanism to reduce the possibility of utilities having to pay back interim earnings as long as the final measured energy savings stay above 65% of the CPUC savings goals.	R.06-04-010 D.07-10-032
Catastrophic Event Memorandum Account (CEMA)	CPUC proceeding to recover costs of responding to the 2005-2006 winter storms and the July 2006 "heat storm." A decision denying heat storm costs was issued in July 2007. On September 21, 2007, PG&E and the CPUC Staff jointly filed a settlement agreement, resolving the winter storm cost issues.	A.06-11-005 D.07-07-041

For a discussion of these regulatory cases, see PG&E Corporation's and Pacific Gas and Electric Company's combined Quarterly Report on Form 10-Q for the quarter ended September 30, 2007, and PG&E Corporation's and Pacific Gas and Electric Company's Annual Report on Form 10-K for the year ended December 31, 2006.
