

# Environmental Policy

---

Our Environmental Policy reflects our environmental commitment and challenges us to find ways to produce, deliver, and use energy as safely and sustainably as possible. It is our policy to:

- Comply fully with the letter and spirit of all applicable environmental laws and regulations.
- Maintain an environmental management system that: (1) fosters environmental excellence and innovation, (2) ensures that regular independent reviews of all environmental aspects of our business are conducted through a risk-informed process, (3) trains employees on applicable environmental requirements and the importance of environmental leadership to achieving our vision, and (4) strives for continuous improvement.
- Lead by example and reduce our impact on the environment by delivering clean energy, building more sustainable and climate-resilient operations, and serving as responsible stewards of land, wildlife and cultural resources.
- Proactively engage with our customers to help them use less energy and better manage their energy footprint.
- Advocate for public policies that create greater environmental benefits while balancing the needs of our customers, communities and shareholders.
- Partner with our stakeholders as we strive to meet our environmental commitment.
- Publicly communicate our progress and performance.
